

SAKTHIVEL S

REACT DEVELOPER

8754390115| sakthivel11725@gmail.com | Tirupur | Portfolio

CAREER SUMMARY

A passionate and highly motivated Front-End Developer with expertise in React.js, JavaScript (ES6), HTML5, CSS, and Node.js. Adept at creating responsive, user-focused web applications, integrating APIs, and building dynamic server-side functionality. Strong knowledge of modern web development practices, version control systems, and agile methodologies. As a fresher, I am eager to contribute my skills and grow in a collaborative, agile team environment.

EDUCATION

Bachelor’s degree of computer application		
Hindustan college of arts and science, Coimbatore	79 %	2021-2024
Government.Hr.Sec.school,Tirupur - XII	80%	2020-2021
Government.Hr.Sec.school,Tirupur - X	76%	2018-2019

TECHNICAL SKILLS

Programming Languages: JavaScript (ES6), HTML5, CSS3
Frameworks and Libraries: React, Node.js
Tools: Git, GitHub
Other Skills: Responsive Web Design, Dynamic UI Development, Debugging

PROJECTS

Project Title 1| Bike service Application

- Developed a Bike Service Application using React for the front-end and Node.js with Express for the back end.
- Focused on creating a responsive and user-friendly interface for service station owners and customers.
- Integrated a secure backend with APIs for efficient data management and ensured a user-friendly and responsive design for interaction across devices.
- Implemented MySQL to manage bookings, services, and customer data efficiently.
- Utilized React Router for seamless navigation across multiple pages, providing a smooth user experience.

Project Title 3 | Weather App

- Built a responsive weather app displaying real-time weather data using the Open Weather API.
- Showcased detailed weather metrics like temperature, humidity, wind speed, and sunrise/sunset times.
- Added dynamic Lottie animations for different weather conditions.
- Showcased detailed weather metrics like temperature, humidity, wind speed, and sunrise/sunset times.

Project Title 2 | Food Ecommerce Website

- The food e-commerce website is an interactive platform designed to allow users to browse and purchase food items online.
- The site focuses on providing a user-friendly interface, responsive design, and essential e-commerce functionalities. Below is a detailed overview of its features and technology stack.
- Successfully delivered a functional and attractive website that improved customer engagement and increased online orders.

Project Title 3 | Medical Appointment Booking System

- Used HTML, CSS, and JavaScript to build a responsive front-end interface for appointments.
- Implemented form validation and dynamic UI updates using JavaScript.
- Deployed application on a Netlify and managed version control with GitHub.
- Integrated a calendar-based appointment scheduling feature for easy booking.
- Optimized the website for faster loading speed and mobile responsiveness.

CERTIFICATION

- REACT JS UI Development from Fita Academy
- React Master Class from NoviTech
- Python Programming from Greate Learning
- MySQL From Oracle
- Front End Development from Greate Learning

LANGUAGES

- English (Verbal and Write)
- Tamil (Verbal and Write)
